

NEED SOME KICKSTART TRAINING SUPPORT?

WE CAN HELP.

The Kickstart Scheme is designed to provide young people with an experience that improves their future employability. It is important to us that the young people on your placements cultivate the skills needed to secure future employment: whether that is with yourselves, or with another organisation.

As an experienced training and employment provider, our sister company EN:Able Futures can help you provide this support to the young people working in your business. **They can provide this support at no cost to you and your business, using a portion of the funding provided by the Kickstart scheme to cover the costs incurred. The packages available are:**

Work-Ready Package

£500

8 hours of Employability Training

Bi-Monthly catch-ups with a
dedicated Development Coach

Construction Site-Ready Package

£150

CSCS Card Training (with 1 assessment)
& Level 1 Construction Health and Safety

Shared Employment Package

£1200

Includes Work-Ready Package
